Professional Summary

Frontend Software Engineer with 3+ years of experience building scalable, responsive web applications using React.js, Vue.js, Next.js, JavaScript, HTML5, CSS3, Tailwind CSS, and REST APIs. Experienced across the Software Development Life Cycle (SDLC), delivering high-performance user interfaces, optimizing application performance, and collaborating with Product, UX, and Engineering teams to build reliable software solutions.

Technical Skills

Languages: JavaScript (ES6+), HTML5, CSS3, Core Java

Frameworks: React.js, Vue.js, Next.js, Nuxt.js, Tailwind CSS

Backend APIs: REST APIs, PHP, SQL

CMS: WordPress, LearnDash, ACF

Tools: Git, GitHub, VS Code, NPM

Concepts: SDLC, Responsive Design, Accessibility, Performance Optimization, Cross-Browser Compatibility, Agile Development

Professional Experience

Frontend Developer | Tiramisu New Media Solutions, Bengaluru 2023 – Present

- Developed scalable web applications using React.js, Next.js, JavaScript, HTML5, CSS3, and Tailwind CSS.
- Collaborated with Product Managers, UX Designers, and Backend Engineers to deliver responsive and user-centric digital solutions.
- Built reusable UI components and implemented component-based architecture for maintainability and scalability.
- Integrated REST APIs and optimized data-fetching workflows to improve application performance.
- Participated in all phases of the Software Development Life Cycle (SDLC), including development, testing, deployment, and maintenance.
- Improved website performance, accessibility, and cross-browser compatibility across multiple client projects.
- Customized WordPress and LearnDash platforms with dynamic CMS functionality and responsive interfaces.
- Troubleshooted and resolved frontend issues, improving platform stability and user experience.

Projects

Chowgule Shipbuilding Division (SBD)

- Built a React.js and Next.js website integrated with WordPress CMS.
- Developed reusable UI components, responsive navigation systems, and dynamic content pages.
- Improved performance and ensured cross-browser compatibility.

UsAgriseeds

- Developed a responsive agriculture product website using React.js, Next.js, and Tailwind CSS.
- Integrated WordPress ACF data dynamically via REST APIs.
- Built reusable UI components, product listings, sliders, and animated banner sections.

Typerating Pro LMS

- Developed a custom Learning Management System using WordPress and LearnDash.
- Implemented course management, enrollment workflows, video integration, and responsive UI.
- Enhanced user experience through dynamic content management and mobile-first design.

Education

Bachelor of Engineering (Computer Science) Global Academy of Technology, Bengaluru 2018 – 2022

Certification

Java Full Stack Developer – JSPIDERS, Bengaluru

Core Java, JSP, Servlets, Spring Boot, REST APIs, SQL
